

PHOTONICS INCUBATOR

The Photonics at UCF Incubator is housed in the Center for Research & Education in Optics & Lasers (CREOL) on the UCF Main Campus. The facility offers laboratory space for technology development partnerships between industry and UCF researchers.

Supported by funding from the US Economic Development Administration, the facility is accelerating the movement of innovative laser and optics technology into the marketplace.

As a photonics / optics company needing assistance you can learn more by allowing the staff and resources at the Metro Orlando EDC assist you!

PHOTONICS & OPTICS ORLANDO

From a specialized workforce and dedicated educational organizations to pioneering research and a progressive business environment, Metro Orlando's photonics and optics industry continues to be a nationally recognized leader, with a rich history of innovation and expansion.

Since its founding in 1999, the UCF Business Incubation Program has helped more than 100 emerging companies (including nearly 70 current clients) create over \$500 million in annual revenue and more than 900 new jobs with an average salary of \$59,000.

The Metro Orlando region is served by the UCF Business Incubation Program. Access to either office / light industrial / lab space is simply one of the benefits of this program. The goal is to facilitate smarter, faster startup and growth of emerging companies so they will become financially successful, high growth companies in the community.
